

9 ARTS

Crafts

Students explore the weekly chapel theme through hands-on creation of a unique project to take home.

Music

Through the sounds and rhythms of different countries, students are introduced to musical concepts and experiment with various instruments.

Studio Art

Students create art forms using different media (clay, canvas, etc.), drawing upon their imagination and free expression. Works of art to be showcased during Family Fun Night.

SPORTS

Gymnastics (1st & 2nd grade)

Under the guidance of the gymnastics professionals of Hawaii Academy, students explore tumbling and different gymnastic routines.

Table Tennis (3rd-5th grade)

Students experience the fun of table tennis through singles and doubles formats and competitive play with friends.

Archery

Students learn "safe archery" skills from coaches certified by Archery For All. Emphasis on form and technique.

Tennis

Introductory tennis techniques taught by Robert Beckvall. Mr. Beckvall has coaching and tennis experience of 20+ years. Teamwork and positive attitudes are recognized at our tennis awards ceremony.

Studio Art	Traditions	Tennis	Science & Circuits

CULTURAL

Dance

Each group learns a cultural dance from one of the countries around the world. Dances to be performed at Family Fun Night.

Cooking

Students prepare recipes of different ethnic dishes and taste these unique flavors from around the world.

Traditions

Students explore the weekly theme and country's culture, as they learn how to become more personally involved in missions, whether at home, or through the local church.

TECH

Animation

(1st & 2nd grade) Students gain familiarity with computers and learn animation principles, as well as create their own flip books.

(3rd-5th grade) Using LEGO®, students employ narrative and stop-motion animation techniques to produce their own animated video to be featured at Family Fun Night.

Coding & Computer

(1st & 2nd grade) Elementary coding principles will be introduced through [Ozobots](#)®, "robots to code, create, and connect with." Students will also enhance their computer tech skills.

(3rd-5th grade) Along with coding principles taught through [Ozobots](#)®, robots for the next generation of creators, students will also learn online coding through Scratch, Khan Academy, and code.org. Students will also redesign Kaimuki Christian Church's missions brochure to help students and families understand our missions theme.

Science & Circuits

Students enjoy hands-on science experiments and use cause and effect reasoning skills through the use of circuits.
