

Educating each child to his or her God-intended potential

"We believe children thrive in an environment that brings together Hawaii's best teachers and Christian values in a 21st century campus where creativity is cultivated and academic excellence is inspired. Kaimuki Christian School gives students the individual attention that they need to succeed."

— Robyn Ahn, Principal

Our Program

KCS develops self-directed and lifelong learners, critical thinkers, effective communicators and active community participants. To achieve our mission, a Biblical worldview is integrated into our educational program through teaching, curriculum, morning devotions and weekly chapel services. With affordable tuition, a convenient location and college preparatory curriculum, KCS may be O'ahu's best kept secret.

Summer at KCS

Our six-week summer session is open to students (P3 - 8th grade) from all schools. A combination of morning academics (language arts & math) and an afternoon of enriching activities are what makes our summer program so popular!

Preschool (P3 & P4)

Watch your child flourish in our preschool program! It's never too early to develop leadership and collaboration. Our interactive, hands-on teaching style and small circle learning aim to nurture these qualities – setting the stage for your child's future success. Children develop their independence, social skills and math & reading readiness skills, as they prepare for elementary school.

Elementary School (K - 5th grade)

Language arts, social studies, science and math are complemented by Chinese, music, computer, art, physical education and enriched by learning experiences in the community. This includes the Big Island trip, excursions, elementary camp and outreach & service opportunities.

As children discover more about their identity in Christ, they grow intellectually, physically, socially, emotionally and spiritually. Highly qualified teachers challenge and engage students in a cooperative environment, providing children with a strong foundation for middle and high school. Extracurricular activities for elementary students include chess club, robotics, volleyball and basketball.

Upper School (6th - 12th grade)

A quality middle and high school curriculum, administered in a personalized setting, prepares students for the rigors of adult life. From camp to service learning projects, students continue to be challenged and nurtured in a well-rounded environment.

High school students embark on trips to Washington, D.C., China and the Philippines. Upperclassmen may enroll in Kapi'olani Community College's Early Admissions Program to earn high school and college credit. Students also have the opportunity to prepare for Advanced Placement Exams. Volleyball, basketball, cross country and soccer teams participate in the Hawaii Sports Fellowship league.

Our 'Ohana

Founded by Kaimuki Christian Church in 1968, Kaimuki Christian School's well-earned reputation over the past 50 years has led to the expansion of the school's campus and offerings. One hundred percent of graduates have gone on to college.

With a student body size of 300 preschool to high school students, teachers and families are close knit. Student-teacher ratios are intentionally kept small to optimize helping each child achieve his or her God-intended potential.

KCS is accredited by the Western Association of Schools and Colleges and the Association of Christian Schools International.

"KCS provided me with a safe and nurturing environment to build my confidence and self-esteem. Because of the small classroom setting, teachers grew to know me on a personal level. As I'm currently studying civil engineering at UCLA, I am truly thankful for my high school education at KCS."

— Charis '16
UCLA

"Throughout my time at KCS, I have learned to be organized, self-directed, and take responsibility for my actions. My faith has grown deeper and my heart bigger. I am grateful to the teachers who not only invested in my life in the classroom but also as coaches and mentors."

— Paul '17
U. of Portland

Apply Today!

Call us for a personalized tour and visit our website to apply online. We'll guide you through the application and enrollment process every step of the way. Applications are accepted year round for the following school year.

Find Us
